Soft skills

Autodidact

Self-taught in both cybersecurity and web development, I have independently developed a deep technical expertise through continuous self-directed learning and hands-on experience.

Team Management

As the founder of a specialized cybersecurity agency, I manage a team of different professionals, overseeing all aspects of operations, project execution, and strategic direction.

Adaptability

Having lived and worked in diverse cultural environments, I have cultivated the ability to quickly adapt to new challenges, environments, and work styles.
